

BAT AUTOMATION SUPPLY

PLATING & PROCESS EQUIPMENT · WITHOUT THE RUNAROUND

US distributor of plating and process equipment — tanks, filtration, pumps, heaters, rectifiers, agitation, ventilation and the consumables that keep a finishing line running. Based in Atlanta, Georgia. Engineered to your process, end to end.

Expert Support

A real person who knows plating answers — before and after the sale — and stays on your order until it lands.

Competitive Pricing

Published numbers priced against the quote-only incumbents. No negotiating to reach list price.

Honest Lead Times

The lead time we quote is the real one. If it's a ten-week build, we say so before you order — not after.

LINE CARD

What we supply

Process Tanks	PP, PVC, CPVC, PVDF and lined steel; multi-station lines, containment	Filtration	Chamber and cartridge filters, carbon treatment, polishing loops
Pumps	Magnetic-drive, seal-less vertical, centrifugal; chemistry-rated wetted paths	Heating & Cooling	Titanium, quartz and PTFE immersion heaters; exchangers, chillers
Rectifiers	DC power, pulse and periodic-reverse; bus bar and cabling	Motors & Drives	Motors, gearmotors, VFDs and hoist drives
Agitation	Air sparge, eductors, cathode-rod agitation, blowers	Ventilation	Lip and push-pull exhaust, scrubbers, mist eliminators
Automation	PLC panels, hoist automation, dosing and monitoring	Consumables	Cartridges, bags, carbon, anode bags, gaskets, seals, elements

Have a worn part and no spec sheet?

Photograph the nameplate or the part itself and email it to sales@batautomation.com. We identify it and come back with a compatible part, a price and a real lead time. Guided by signal, not guesswork.
